Late Filing and Underpayment Penalties – IMPORTANT

A return listing any tax due must be submitted/postmarked by the due date to avoid late penalty amounts.

The payment due must be remitted with the signed return to be considered filed. The United States Postal Service cancellation mark determines the date deemed filed/received. When a return is received after the due date, the following penalties will be imposed:

- 9% of the tax due if postmarked after the due date.
- 19% of the tax due if postmarked after the last day of the first month following due date.
- 29% of the tax due if postmarked after the last day of the second month following due date.

Note: No penalty imposed due to late filing shall be less than \$5 if any tax is due.

Interest due: Interest due on late payments will be calculated from the date due until the date paid. Use this formula to calculate interest: $(\text{annual interest rate}/360) \times \text{tax due amount} \times \text{number of days late}$.

If the amount of tax paid is less than the amount due additional interest may be charged. If your return is underpaid or if additional amounts are owed due to added penalties/interest, a notice of underpayment will be mailed for the remaining balance owed.

If your payment is dishonored by your bank, License and Tax Administration will add an insufficient funds charge of \$20.
