

YOU ARE INVITED!

MAPLE WOOD PLAYFIELD AND PLAY AREA RENOVATION

Seattle Parks and Recreation needs your input on improvements to Maple Wood Playfield Park play area and playfield. Please join Seattle Parks and Recreation staff and consultant, PLACE Landscape Architecture, to learn about the project and provide feedback on the design.

This project will improve both the field and play area. Field improvements include: new drainage, irrigation, grass turf, backstops and bleachers. Play area improvements include: reorganizing the play area and installing new play equipment that meets current safety standards.

WE ARE HOSTING THREE MEETINGS.

- The first meeting will be an opportunity to learn about the project and provide input on what should be considered and inform the overall design.
- The second meeting involves reviewing and providing input on design options.
- The third meeting will include your feedback from the first two input opportunities and is an opportunity to review and comment on the preferred design.
