

A Neighborhood Greenway is Coming to Your Neighborhood!

The **6th Ave NW neighborhood greenway** will enhance safe access for people walking and biking in the area. The planned neighborhood greenway route connects to West Woodland Elementary School and the existing neighborhood greenway on NW 58th St.

Improved crossing of Leary Way NW at NW 43rd St could start as soon as December 2023. We anticipate the rest of the neighborhood greenway will be constructed in 2024.

Please see map of intersection improvements.

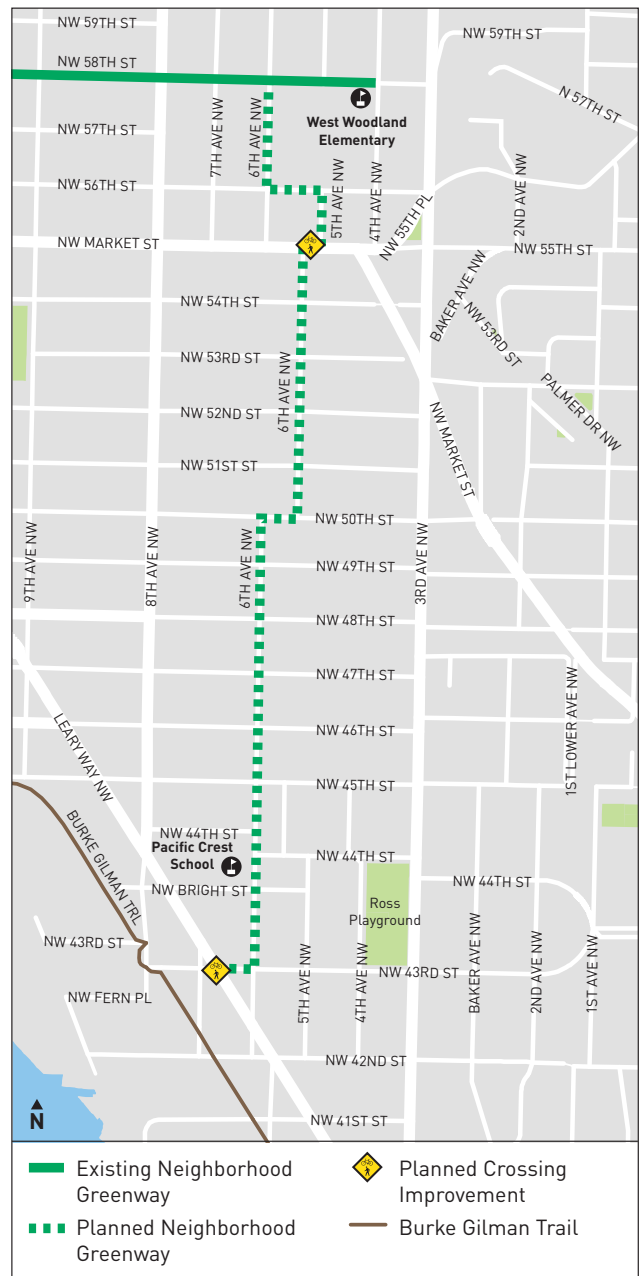

WHAT IS A NEIGHBORHOOD GREENWAY?

Neighborhood greenways are safer, calmer residential streets for you, your family, and neighbors. We make people walking and biking the priority. The design elements of neighborhood greenway include speed humps, stop signs for side streets crossing the greenway, crossing improvement and wayfinding.

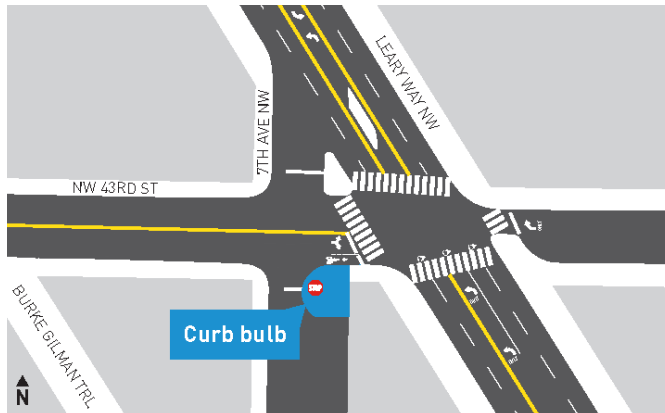

WHAT TO EXPECT DURING CONSTRUCTION:

Typical construction hours are weekdays, 7 AM to 5 PM, with occasional weekend and night work. Other expected construction effects may include:

- Noise, vibration, dust and debris
- “No Parking” areas and temporary driveway and parking impacts for construction staging near the work sites
- Crosswalk and sidewalk closures, and detours for people walking and biking
- Roadway closures and detours for vehicle traffic
- Changes in construction schedule due to unforeseen circumstances (i.e., weather, soil conditions, etc.)

Proposed Crossing Improvements

LEARY WAY NW AT NW 43RD ST

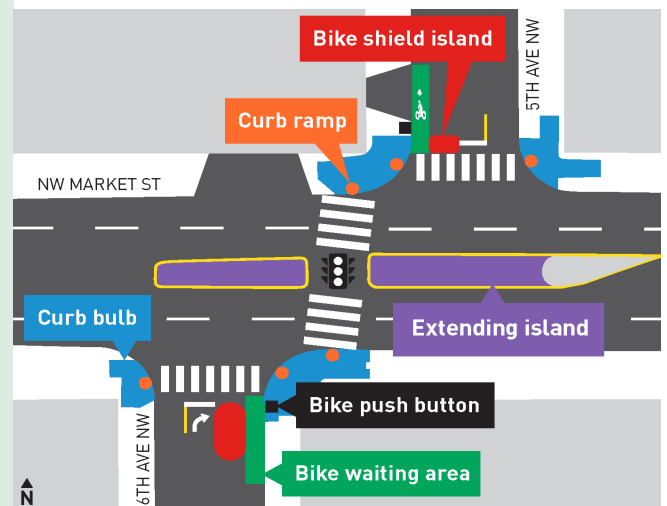

Improvements to existing signalized crossing

- Improve safe access for people biking to the existing bicycle push button by adding a protected bike lane in the eastbound direction
- Refresh pavement markings and signs to clarify allowable vehicle movements
- Add bike dots on the crosswalk
- Add one painted curb bulb and stop sign on the SE corner of NW 43rd St and 7th Ave NW
- No change to vehicle access or movements

NW MARKET ST AT 6TH/5TH AVE NW

Improve existing crossing signal for people walking, biking and rolling across NW Market St

- Install curb ramps
- Improve ability for people biking to cross NW Market St by installing:
 - Bike push buttons
 - Bike waiting zones separated from vehicle traffic with shielding islands
- Revise vehicle operation to right in / right out only for 6th Ave NW and 5th Ave NW through the extension of the existing median island and updating signs and pavement markings
- Mailboxes on the SE corner will be relocated to improve accessibility from the sidewalk

Visit our webpage to learn more about this project and our anticipated construction schedule.
