

Madison Line

January 2022

Upcoming watermain installation for the Madison – RapidRide G Line project

Beginning as early as the week of **January 24**, our construction crews will begin installing a watermain between 23rd Ave E and just east of 24th Ave E as a part of the Madison BRT – RapidRide G Line project. This work will take approximately 2-3 months to complete. To safely accommodate the work, traffic will be shifted to the north side of E Madison St while this work is being completed. This will restrict some parking and load zones.

During active work, the watermain installation will require intermittent driveway closures. Crews will have steel plates available to maintain access to driveways and facilitate getting neighbors in and out.

Ongoing utility updates are a key part of this project. After watermain work is complete, the team will repave the street and rebuild sections of the sidewalk. They'll also upgrade the traffic signal and improve the pedestrian crossing at 24th and John. We will be back in touch with more information.

What you can expect during construction

- Increased truck traffic and heavy machinery
- Increased noise and dust
- Restricted street parking and load zones
- Typical work hours between 7 AM – 5 PM, Monday through Friday

Help us coordinate with you during construction!
