

# HAGAAJINTA RAINIER

## Rainier iyo Rose 2020/2021

### MAXAA ISBEDDELO LOOGU SAMEEYNAYA RAINIER/ROSE?

Isgoyska Rainier iyo Rose waa mid ka mid isgoysyada ugu sareeya ee shilalka ee ka dhaca Rainier. Inta badan shilalka dhaca waxay dhacaan marka wadayaasha ay ka leexanayaan bidix ama ka leexiyaan Rainier dad badana way ku lug leeyihiin dadka lugeynaya. Waxaan ka shaqeyneynaa inaan ka dhigno mid xasilloon oo kaamil u ah qof kasta.

### MAXAA ISBEDELAYA?

Waxaan la wadaagnay 2 xulasho oo kala duwan derisyada iyo Jaaliyadaha Itoobiya ee Seattle soo booqdayaasha (qiyaastii 100 qof wadarta). Waxaan maqalnay dadka badankood waxay doonayaan casriyeyn ka socota calaamadaha meelaha dadku ku lugeeyaan ee hadda jira una sameeyaan nalalka signalka oo buuxa (4-way)

Waxaan soo uruurinay deeq-lacageed waxaan hadda ka shaqeyneynaa naqshadeynta tilmaame buuxa oo ay ka mid noqon doonaan isgoysyo cusub oo dhinaca oo dhanka waqooyi, waddo cusub oo loo leexdo, iyo kordhinta labo ka mid ah geesaha lagu lugeeyo.

Si loogu oggolaado meel bannaan oo loogu talagalay leexashada dhanka bidix, waxaan u baahan nahay inaan ka saarno baarkinka dhinaca galbeed ee waddada. Waxaan ognahay in baarkinka uu

aad muhiim u yahay, sidaa darteed waxaan ka shaqeyneynaa inaan ku darno aag cusub oo dejinta ah si aan u taageerno ganacsiyada, waxaan ku dari doonnaa baarkin cusub dhinaca bari ee wadada.

Tani waxay hagaajin doontaa amniga iyadoo la abaabulayo isgoyska iyo in si fiican loo fududeeyo leexashada bidix. Waxay sidoo kale ka dhigaysaa ka gudubka wadada mid aad u raaxo badan dadka lugeynaya si ay u qaadaan baska una booqdaan meheradaha maxalliga ah. Waxaan rajeyneynaa inaan dhiso horumarintan sanadka 2020/2021.

### NAGALA SOO XARIIR

Xor baad u tahay inaad nagala soo xiriirto su'aalaha ku saabsan RainierAveS@Seattle.gov ama 206-727-8697. Waxbadan ka baro [www.seattle.gov/visionzero/projects/rainier-ave-s](http://www.seattle.gov/visionzero/projects/rainier-ave-s).

Waad ku mahadsantahay caawintaada si looga dhigo Rainier mid ammaan ah

## New Signal and Crosswalk at Rainier and Rose

### WHY MAKE CHANGES TO RAINIER/ROSE?

The intersection of Rainier and Rose is one of the top intersections for crashes on Rainier. Most crashes happen when drivers are turning left on and off of Rainier and many have involved people walking. We're working to make it safer and more comfortable for everyone.

### WHAT WILL CHANGE?

We shared 2 different options with neighbors and 'Ethiopian Community in Seattle' visitors (about 100 people total). We heard most people wanted an upgrade from the current pedestrian signal to a full (4-way) signal.

We are currently working on design for a full signal which will include a new crosswalk on the north side of the street, a new center turn lane, and extending two of the sidewalk corners.

To allow space for the left turn pockets, we need to remove parking on the west side of the street. We know parking is very important, so we're working to add new load zones to support businesses, and we're adding new parking on the east side of the street.

This will improve safety by organizing the intersection and better facilitating left turns. It will also make crossing the street much more comfortable for people walking to catch the bus and visit local businesses.

### WHEN WILL THIS HAPPEN?

We had originally planned to build all these improvements in 2020 but with budget cuts and constraints on our construction crews, we're now planning to build the signal and north crosswalk in 2021. The rest of the improvements are still planned for 2020.

### CONTACT US

Feel free to contact us with questions at [RainierAveS@Seattle.gov](mailto:RainierAveS@Seattle.gov) or 206-900-8724. Learn more at [www.seattle.gov/visionzero/projects/rainier-ave-s](http://www.seattle.gov/visionzero/projects/rainier-ave-s).

Thank you for your help in making Rainier safer!
